

Deduction	Description
0,05	General issues: Spelling and grammar
0,1	Question
0,25	Workflow: No normalization
	Heat map: Zeros in the upper triangle are confusing: they suggest that duplication between , say versions A and B, is different from duplication between versions B and A. You should have either presented a symmetric
0,5	picture or greyed out the upper rectangle.
0,25	Wrong or unsupported statement
0,25	Tool: No discussion of how the minimal clone size is set.
	General: Capitalize classes of numbered objects: "As shown in Figure 1",
0	"In Section 2 we discuss", etc.
	Tool: No explicit translation of the coverage formula to the CCFinder
0,25	metrics
1	Tool: No adequate solution for overlapping clones
	Heat map: Quality of the fonts in the axes labels (versions) should be
0,1	improved.
	Workflow: Clone coverage is calculated based on tokens rather than on
0,75	lines
1	Application: Less than 50 releases have been considered
0,5	Discussion of the evolution: No discussion of major releases
